		Toothed belt	•	•	•	–	•

• included in the package / – not included in the package / o available as an option / * Where relevant

Ordering information

Please also include the device type in the order text when ordering. For example:

Part no.: 69SPK-CW-002. Order text: Life Cycle Kit for 5 years CoSynus / device specification

Spare parts packages	Description	Part no.
Starter Kit	The Starter Kit is ideal for new products. With this kit, you receive the most important spare parts (where applicable) for installing the device and therefore ensure that this can take place without any problems.	69SPK-CW-001
Life Cycle Kit	The Life Cycle Kit is designed for maintenance and replacements after years of operation, thus optimising the operational capability of your devices. The Life Cycle Kit is available in the following variant: – Life Cycle Kit for 3 years: Contains spare and wearing parts based on a period of operation of 3 years (in single-shift operation) – Life Cycle Kit for 5 years: Contains spare and wearing parts based on a period of operation of 5 years (in single-shift operation)	69SPK-CW-002
Emergency Kit	This kit contains crucial spare parts. Having parts available as a preventive measure is essential for reducing downtime as much as possible, especially in sensitive areas of the system.	69SPK-CW-003
Total Care Kit	The all-round carefree package. In addition to the standard spare and wearing parts, this kit also contains components that fail less frequently, meaning you are covered for more or less all eventualities.	69SPK-CW-004

The products and solutions presented in this data sheet make major contributions in the following sectors:
